# Education

## ***Pre-School:***

Active play marks our early childhood program, with an environment equipped for experimentation and discovery. Through the course of the day the children are guided through activities to promote problem solving, number sense, language, music, movement and art. Friendships are encouraged and imagination is stimulated as the children interact and play, knowing that they are loved as children of God.

## ***Elementary School:***

What a great time of tremendous growth intellectually, emotionally, and spiritually! Children participate in drama and musical productions, active play, and artistic expression. Our elementary program provides the language, math, and thinking skills to prepare them for the next level and for a successful middle school experience.

## ***Middle School:***

Our program builds the bridge in academics, the arts, and spiritual maturity between the elementary grades and high school. Opportunities are provided for the students to participate in leadership roles and service projects. Most importantly, we seek to instill lasting values of Christian discipleship based on God's word.
